New Lower Limb Prostheses Benefit

Effective for dates of service on or after May 1, 2006, HCPCS code L5611 (addition to lower extremity, endoskeletal system, above knee – knee disarticulation, 4-bar linkage, with friction swing phase control) is a Medi-Cal benefit.

Lower limb prostheses (HCPCS codes L5610 – L5617) are reimbursable only when a referring physician has documented the medical necessity for these types of appliances. Code L5611 is appropriate only for recipients with a medical necessity for “swing phase control,” and is restricted to once per three-year period. The prosthetist must submit a *Treatment Authorization Request* (TAR) that documents the recipient’s functional needs, including the recipient’s:

- Past history, including prior prosthetic use, if applicable;
- Current condition, including status of the residual limb and the nature of other medical problems;
- Ability to reach or maintain a defined functional state within a defined and reasonable period of time; and
- Motivation to ambulate.

A patient’s functional level must be “1” or higher to qualify for this benefit. Any individual whose functional level is “0” is not a candidate for this type of prosthesis and Medi-Cal coverage will be denied.

The updated information is reflected on manual replacement page [ortho cd2 5](#) (Part 2).

Diabetic Medical Supplies Addition

Effective for dates of service on or after April 1, 2006, the following Home Diagnostics, Inc.-contracted diabetic supply has been added to the *Medical Supplies List* section.

<u>Description</u>	<u>Billing Code</u>	<u>Bill Quantity in Total Number of</u>
Sidekick Blood Glucose System (50-ct)	56151088050	Kit

Kits are limited to no more than two per dispensing/claim with a therapy duration limit of four dispensings in 90 days, per recipient, without prior authorization.

This product is reimbursable to Pharmacy providers only, and must be billed using the Point of Service (POS) network, Computer Media Claims (CMC) or paper.

This information is reflected on manual replacement page [mc sup lst1 17](#) (Part 2).

Universal Product Number Pilot Project for Medical Supply Billing

The following notice is in preparation for future changes related to medical supply billing. Please continue to bill for medical supplies according to existing policies until further notice.

It is anticipated that beginning January 1, 2008 billing requirements for medical supply claims will change significantly due to the Health Insurance Portability and Accountability Act (HIPAA), which mandates the use of HCPCS Level II codes on electronic claims. As a result, the California Department of Health Services (CDHS) plans to discontinue use of all interim medical supply codes and convert to HCPCS Level II. This change requires attachments on a majority of these claims.

To assist providers, CDHS received from the Centers for Medicare and Medicaid Services (CMS) an exception to the HIPAA standards, which allows for the use of the Universal Product Number (UPN) or bar code as part of a two-year pilot project. This project allows participating providers to submit the UPN on electronic and paper claims for the following four product categories:

1. Urinary catheters and bags
2. Incontinence supplies
3. Ostomy care products
4. Wound care products

CDHS will actively seek volunteers to participate in the UPN pilot project. When billing for products in the four categories, some of the advantages of participation include:

- On-line real-time claims processing, which allows for immediate claim status notification
- No requirement to submit claim attachments
- Improved speed and accuracy of claim payments

Non-participating providers will be required to bill HCPCS Level II codes on all medical supply claims. The majority of these claims will continue to require attachments, and on-line real time claims processing will not be available.

CDHS will conduct a survey beginning in June 2006 to assess the level of provider interest in the UPN pilot project. Additional details about the project and information about responding to the survey will be on the Medi-Cal Web site and in future *Medi-Cal Updates*.

Public Comment Forum Available Through July 31, 2006

Providers can e-mail questions and comments regarding the UPN pilot project and medical supply HIPAA compliance efforts to CDHS through the Medi-Cal Public Comment Forum. The “Medi-Cal Comment Forum” page is located in the “HIPAA Update” area of the Medi-Cal Web site (www.medi-cal.ca.gov). Providers should click the “HIPAA” link on the home page and then the “Medi-Cal Comment Forum” link. The forum will be available April 7 through July 31, 2006. Questions will be collected and summarized into a FAQ and posted on the Medi-Cal Web site this summer.

Exceptions to Submitting CIFs

Providers are reminded not to submit *Claims Inquiry Forms* (CIFs) for the following Remittance Advice Details (RAD) code messages, unless information on the CIF specifically addresses the denial reason. For example, if the denial was 002, but an error is found in the recipient ID on the original claim, this would be an appropriate CIF, with a changed recipient ID. However, if providers wish to challenge the determination, a CIF will result in the same denial. A review by a person in the appeals unit is the only way of resolving denials if the claim has a unique circumstance needing human intervention.

<u>Code</u>	<u>Message</u>
0002	The recipient is not eligible for benefits under the Medi-Cal program or other special programs.
0010	This service is a duplicate of a previously paid claim.
0072	This service is included in another procedure code billed on the same date of service.
0095	This service is not payable due to a procedure, or procedure and modifier, previously reimbursed.
0314	Recipient not eligible for the month of service billed.
0326	Another procedure with a primary surgeon modifier has been previously paid for the same recipient on the same date of service.

The updated information is reflected on manual replacement page [cif co 2](#) (Part 2).

CCS/GHPP SAR Exceptions Update

Effective for dates of service on or after April 1, 2006, California Children's Services (CCS) and Genetically Handicapped Persons Program (GHPP) providers need a separate Service Authorization Request (SAR) for the following drugs, factors and nutritional products:

- Anti-Inhibitors (J7198)
- Factor VIIa Recombinant (Q0187)
- Minerals/Protein Replacements/Supplements
- Sildenafil
- Tadalafil
- Vardenafil
- Von Willebrand Factors (Q2022)

In addition, effective for dates of service on or after April 1, 2006, Factor VIIa Recombinant should be billed using HCPCS code Q0187. HCPCS code Z5230 will no longer be an active code.
